

DEPARTMENT OF THE INTERIOR

Geological Survey

[GR22ZS00MD82100; OMB Control Number 1028-NEW]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Assessing Community Needs for Terrestrial Analog Studies

AGENCY: Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a request to approve an information collection in use without an approval.

DATES: Interested persons are invited to submit comments on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function. Send comments by mail to the U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028-NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact Lauren Edgar by email at ledgar@usgs.gov, or by telephone at 928-556-7213. Individuals in the United

States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A *Federal Register* notice with a 60-day public comment period soliciting comments on this collection of information was published on February 16, 2022. No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be

collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The survey is designed to gather feedback from community members that have a self-described interest in the use of terrestrial analogs. The survey is intended to assess the obstacles that exist related to training, research, sample collections, and data archiving within analog projects, the need for coordination across the community, and what products and services might be needed to further terrestrial analog use and to support exploration. Results from the survey will not be targeted at a particular audience but will instead be used to encourage responses and actions by various parts of the community.

Title of Collection: Assessing Community Needs for Terrestrial Analog Studies.

OMB Control Number: 1028-NEW

Form Number: None

Type of Review: NEW

Respondents/Affected Public: Individuals

Total Estimated Number of Annual Respondents: 300

Total Estimated Number of Annual Responses: 300

Estimated Completion Time per Response: 30 minutes on average

Total Estimated Number of Annual Burden Hours: 150

Respondent's Obligation: Voluntary

Frequency of Collection: As needed

Total Estimated Annual Nonhour Burden Cost: 0

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Justin Hagerty,
USGS Astrogeology Science Center Director, Southwest Region.
